BTEC HND in Quantity Surveying

Step into a globally recognized career pathway with CSCT & University of Salford, UK

A Quantity Surveyor (QS) or Cost Engineer is a professional within the construction industry. Their role is to manage and control costs of construction project using a range of management and technical tools to achieve to this purpose.

A recognised qualification in Quantity Surveying leads to other specialist areas such as value management, dispute resolution, arbitration, insurance and many related areas in the industry.

Colombo School of Construction Technology

Colombo School of Construction Technology (CSCT) was established in 2008, and offers unique educational programmes in construction technology. The range of educational programmes offered by CSCT includes the BTEC Higher National Diplomas (HND), Undergraduate as well as Post graduate studies.

CSCT lecture panel consists of leading professionals in the construction industry, who bring with them a wealth of localised experience and knowledge in to the international education curriculum. All our teaching staff are extensively linked to the construction industry and hence the knowledge they deliver is up-to-date and relevant to the industry.

BTEC Higher National Diploma

The BTEC HND programmes deliver a specialist vocational programme, along with professional body requirements and national occupation standards. There is significant emphasis placed on work-related experience.

BTEC HND holders can then progress on to the second year of a degree or third year of an honours degree programme, given that the BTEC HND units match those required by the degree programme.

The programme

Entry: Minimum 2 G.C.E. A/L passes in any stream or relevant industry experience (students with pending A/L results may apply)

Duration

Full time = 18 months

Part time = 24 months

6 months Industrial Placement
