

# BTEC HND In Healthcare Practice

## Step into a globally recognized career pathway with CSHS

The HND course provides an engaging curriculum, highlighting healthcare practice, health promotion, and social care adapted to both Sri Lankan and international contexts. Students are shaped into competent and compassionate professionals who can kickstart their careers or pursue higher studies.

The course is modular in structure covering sector-specific knowledge and skills. Clinical training is done at Durdans Hospital's Amrak Institute of Medical Sciences, taught by qualified healthcare professionals who are experts in their fields. Students gain competence in specialist areas through evidence-based practice, personal research, self study, directed study and workplace learning and experience.

# Colombo School of Health and Sciences (CSHS)

Colombo School of Health and Sciences (CSHS) is proud to introduce the Pearson HND in Healthcare Practice to Sri Lanka. CSHS's partner institution, CSCT Campus, has been in the education industry since 2008 and has extensive experience in higher education delivery.

CSHS lecture panel consists of leading professionals in the medical and health care industry who bring with them a wealth of localized experience and knowledge in to the international education curriculum. All our teaching staff have strong links to the medical and health care industry and hence the knowledge they deliver is up-to-date and relevant To the industry.

In partnership with Durdans Hospital's Amrak Institute of Medical Sciences, CSHS brings state of the art clinical and teaching facilities, including clinical training at Durdans Hospital, to give students a modern education in line with industry standards and protocol.
